

Since 1990

DECCOMELT 9037

Hot Melt Glue

DESCRIPTION:

DECCOMELT 9037 is a synthetic polymer hot melt adhesive which is specially formulated for book binding. It is a fast setting hotmelt adhesive suitable for perfect binding. It can be used on roller, wheel and nozzle applicator.

APPLICATION: **DECCOMELT 9037** glue film is transparent white and it is flexible. It provides specific adhesion and penetrates well to wider range of surfaces. Its thermal and pot stability will reduce downtime, has a wider service temperature range, and has good stability in the adhesive industry.

PREPARATION & USAGE:

DECCOMELT 9037 is supplied ready to use and do not require mixing. Surfaces to be glued must be clean and free from dust, grease or oil.

STORAGE:

DECCOMELT 9037 is stable. Stores well for at least 9 to 12 months at room temperature of 20° C. Keep bag closed when not in use. It has indefinite storage shelf life.

PACKING INFORMATION

Size	Carton/Pallet
18 kg carton	36

PHYSICAL PROPERTIES

Type	Synesthetic co-polymer	Melt	5,250 cps
Appearance	White small pillow form	Viscosity	
Softening Point	81° C	Odor	Mild
Setting Time:	<30 seconds	Open Time:	<1 minute
		Operating Temperature	160° – 190° C
